

Peer Assistance Services

Nursing Peer Health Assistance/Nurse Alternative to Discipline Program Practice Monitor

The purpose of the practice monitor report is to record the requirements and the progress of the licensee. Practice monitors are responsible for the periodic assessment of the licensee's practice.

- The practice monitor report is completed at intervals determined by the licensee's rehabilitation contract. The report is due the 4th of each month. The reports must be sent by the practice monitor, not the licensee, to Peer Assistance Services, Inc. (PAS.)
- The practice monitor will meet with the licensee on a regular basis to evaluate performance, to appraise the licensee of areas of competency, and to identify problem areas. The practice monitor will review the results of the report with the licensee before the reports are submitted to PAS.
- The licensee shall give a copy of his or her PAS rehabilitation contract to the practice monitor.
- The monitor must have a valid active license in the state of Colorado without pending disciplinary actions. The monitor shall supervise only one licensee at a time in order to properly supervise the licensee's professional practice. The monitor may not have any relationship by marriage or consanguinity, nor corporate affiliation, nor any prior or current financial relationship with the licensee, other than remuneration for the services as a practice monitor.
- The monitor and the licensee must be in compliance with the Colorado Nurse Practice Act found at <http://www.dora.state.co.us/NURSING>.
